B 次の、ドイツの村オーバーアマガウ (Oberammergau) の受難劇 (Passion Play) についての文章を読んで、あとの各問い(問1～問6)に答えよ。

Oberammergau is a village in Southern Germany. Every ten years, around 500,000 people come to this small village from all over the world. They come to see the Passion Play.

The Passion Play is a theater performance that tells the story of the life and death of *Jesus Christ. We can see the play in many parts of the world. (a), the Oberammergau Passion Play is special and different from the others. This event has been held for almost 400 years.

It began in 1633. The village was suffering from an illness which killed a lot of people in the area. The people who survived it thanked God and decided that they would perform the Passion Play every ten years. The first performance was held in 1634 and the villagers have kept their promise since then.

The village people are the actors in the Passion Play. But (b). This is because a lot of people began to move to the village, and the number of villagers became too large. For that reason, the village made a rule for the performance in 1910. Only people who were born or lived there for more than ten years could perform in the play. After the Second World War, a great number of people came to live in the village, so the rule was changed from ten years to 20 years. Today, there are about 3,000 people who hold that right. The last time they held the play in 2010, more than 2,000 people performed in the five-hour play between May and October.

The play is a virtue of Oberammergau. The tourism brings many visitors from around the world. The money they spend on tickets, hotels and restaurants during their stay is important to the small village. The village has been able to improve its community center, swimming pool and other services.

The people of Oberammergau will again perform the Passion Play in 2020. The tickets are already on sale in many countries and a great number of people are waiting to travel to Oberammergau.

注) *Jesus Christ=イエス・キリスト
